- Databases: MySQL, SQL Server, SQLite, MS Access
- Tools & IDEs: Visual Studio, VS Code, XAMPP, GitHub, Code::Blocks, Arduino, NetBeans, Eclipse...etc.
- Web Hosting & Deployment: FTP, c-Panel, domain & hosting manage & setup, WP Site optimization
- Basic App Projects: Android (HTML5 based, MIT App Inventor, Vue3 + NuxtJS, Svelte, Cordova)
- Mid-Level Desktop Software: C#, VB.NET + SQL/MS Access,

Networking Skills

- LAN/WAN, Router and switch configuration basics and troubleshooting
- IP configuration for PCs, laptops, printers, and scanners
- Network file sharing and remote access support
- Basic wireless network setup and troubleshooting
- Network device installation and driver configuration
- Maintaining local area network (LAN) stability and security

Technical Skills

- **Operating Systems:** Windows (all versions), Linux (Ubuntu, Debian) – Installation & Configuration
- **Office & Productivity Tools:** Microsoft Office Suite (Excel – advanced formulas & reporting, Word, PowerPoint), Google Workspace (Docs, Sheets, Slides, Drive), Data Entry
- **IT Support & Administration:** Hardware troubleshooting, software installation & updates, printer & scanner setup, email client configuration (Outlook, Thunderbird), firewall & antivirus setup
- **Networking:** LAN/WAN setup, router & switch configuration, IP addressing, network troubleshooting, wireless network setup, file sharing & remote access
- **ERP & POS Systems:** ERP, Retail POS system maintenance, Barcode & Label printing solutions
- **Server:** Good Working knowledge of Local Linux and Windows Hosting Servers, c-Panel, Turnkey Linux Server, VMware/Virtual-Box Virtualization for windows and linux, Ubuntu server,
- **Programming Languages:** C, C++, C#, VB.NET, HTML, CSS, JavaScript, PHP, SQL
- **Web Development:** Different type of web Site with Elementor, LMS, Delivery, WooCommerce...etc plugins), Laravel (mid), Vue.js (mid), jQuery, Bootstrap, Admin Panels
- **Databases:** MySQL, SQL Server, SQLite, Microsoft Access

- **Software & Tools:** Visual Studio, Visual Studio Code, XAMPP, Git & GitHub, MIT App Inventor, Adobe Photoshop, Adobe Illustrator, Canva, AI Apps
- **Others:** Advanced Excel automation & reporting, bulk email campaign tools, ChatGPT & AI tools integration, FTP & c-Panel hosting management

Projects Experience (By Technology)

Data Entry & Reporting

-  **Keya Group (IT, GPRO Section)** — Executed barcode data entry into GPRO ERP and automated Excel-based office reporting using advanced formulas to improve accuracy and efficiency.
-  **Rongtuli** — Edited and optimized product images to enhance visual presentation for online store listings.
-  **Faith Overseas Ltd**— Managed blog and news updates with professional image retouching for polished digital communication.
-  **Tholey** — Conducted product data uploads and updates for a bike-focused e-commerce platform, maintaining 100% catalog accuracy.
-  **TIC Accessories Inc.**— Performed detailed data entry, crafted product descriptions, designed infographics, edited PDFs, and updated pricing—supporting timely product launches.
-  **RealCafeBD**— Managed product data entry and created marketing infographics to support online sales of coffee machines and coffee mix products.
-  **DifferentCafeBD**— Managed product data entry and created marketing infographics to support online sales of coffee mix products.
-  **CosmicShopBd** — Oversaw product uploads, pricing management, and data updates for a cosmetics e-commerce site, ensuring catalog accuracy.

IT Support & Hardware Maintenance

-  **Keya (IT, GPRO Section)** — Provided IT support for 20+ PCs, including OS installation and troubleshooting; configured and maintained GPRO ERP and Barcode App Label printers; performed network maintenance (RJ-45 cabling).
-  **B.P.I. Innovation Lab** — Established and managed an IT innovation lab: configured network infrastructure, installed and tested hardware components, and provided ongoing software support.
-  **Naogaon Technical School (Computer Lab)**— Diagnosed, repaired, and maintained computer lab PCs, minimizing downtime and ensuring uninterrupted classroom operations.
-  **OS Customization** — Customized Porteus Linux and Android bootloaders for branding on identity.

E-Learning Development

-  **B.P.I. Virtual Institute** — Developed a pioneering e-learning platform concept; recognized as ICT Fair Champion 2017 for innovation in digital education.
-  **B.P.I. Content Library** — Developed a campus-wide digital resource hub hosted on a local server, enabling students to freely access educational materials on mobile devices via Wi-Fi.
-  **Chem by Navid** — Designed and integrated an LMS with WooCommerce to create an interactive chemistry education website featuring course modules, quizzes, and e-commerce functionality.

Web Development

-  **Faith Media** — Designed and maintained a corporate portfolio website to showcase creative agency services.
-  **Gontobbo Express** — Created a logistics site to manage order placement, shipping, and delivery workflows; integrated role-based access controls to secure administrative operations.

E-Commerce Development

-  **TIC Accessories Website** — Managed development and content for an international e-commerce platform specializing in tech accessories.
-  **Rapid Supplies (TIC)** — Built an online ordering system for office and industrial supply distribution.
-  **Different Cafe** — Developed a brand website and e-commerce portal for café product sales.
-  **Real Cafe** — Implemented a brand and e-commerce website for coffee machines and mix products, driving online sales.
-  **CosmicShopBd** — Developed a retail and wholesale WooCommerce site for cosmetics, supporting product and sales management.

Software Development

-  **Student Management System** — Designed tuition fee and student record management software, facilitating administrative tasks in educational institutions.
-  **TIC Warehouse System** — Developed inventory and logistics management software to optimize warehouse operations and stock control.
-  **School Auto Bell 2.0** — Built an automated bell scheduling system with Text-to-Speech announcements to improve school operational efficiency.
-  **Easy C IDE** — Developed a lightweight C IDE featuring auto-save functionality to streamline coding workflows.

Embedded Systems Development

-  **Res-Q Life Saving Car** — Engineered a fully functional robotic rescue vehicle: hardware design, C++/Arduino firmware, electronics integration, power system management, and sensor calibration.

 **Res-Q Car Controller** — Developed Bluetooth-based desktop controller software to remotely operate the robotic vehicle, ensuring reliable PC-to-hardware communication.

Mobile Application Development

 **Tasbih App** — Developed an Android app with automatic counting, vibration feedback, and sound notifications using MIT App Inventor.

 **CosmicShopBd App** — Created an admin and user mobile application for managing cosmetics whole-sale e-commerce operations.

Achievements & Certifications

- Developed 10+ responsive websites using WordPress, Laravel, and e-commerce platforms
- Administered and trained users on ERP modules including GPRO HR, Payroll, and Inventory
- Designed and implemented automated Excel tools to streamline reporting and data analysis
- Delivered IT training to 80+ students, Covering MS Office and IT system troubleshooting
- Provided remote IT support and technical assistance to international clients and executives
- Managed product listings and SEO optimization for Amazon, eBay, and e-Commerce stores
- Created barcode and label printing solutions integrated with POS and retail systems

Soft Skills & Core Competencies

- Strong problem-solving, troubleshooting, and analytical thinking
- Accurate reporting, documentation, and Excel task automation
- Proficient in MS Office, Google Workspace, and corporate email systems
- Quick learner with adaptability to new IT tools and environments
- Effective time management, prioritization, and multitasking
- Experienced in Manager, CEO, Executives, Client, and User-level IT supports
- Collaborative team player with clear communication and accountability

Hobbies & Extracurricular Activities

- Developing utility software and basic Android applications
- Automating reports with Excel and Google Sheets
- Providing IT support to peers and small businesses
- Designing graphics, labels, and digital content for practice
- Continuously learning new tools, technologies, and trends
- Exploring AI tools and New platforms (e.g., ChatGPT, Leonrdo, MIT App Inventor)
